DETAILED ACTION

This action is in response to Amendment filed March 22, 2004. Claims 17 and 20 have been amended and claims 22 and 23 have been added as requested by the applicant.

Response to Arguments

Applicant's arguments, see Amendment, filed March 22, 2004, with respect to claims 17 and 20 have been fully considered and are persuasive. The rejection of claims 17 and 20 has been withdrawn.

Allowable Subject Matter

Claims 17, 20, 22 and 23 allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 17 and 22, the prior art of record fails to teach or suggest a microscope with an imaging element that receives a color signal, a recognizing means for recognizing and changing the magnification of a specimen, a color signal processing means and a filter coefficient setting means to accentuate the contour of each of the color signals.

Regarding claim 20, the prior art of record fails to teach or suggest a microscope with an imaging element that receives a color signal, a microscope control section to recognize and

change the magnification of a specimen, a color image control section a filter circuit to accentuate the contour of each of the color signals.

Claim 23 depends from claim 20 and is therefore allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
